

A large center pivot irrigation system is shown in a lush green field. The system consists of a long metal wheel line supported by a series of truss-like structures, with multiple lateral pipes and nozzles extending from it. Water is being sprayed from the nozzles onto the grass. In the foreground, a blue and silver control box is visible, mounted on a metal frame. A large, treaded tire is also visible in the lower left. The background features a dense forest of evergreen trees under a sky filled with white and grey clouds.

Erfaringer med bruk av vanningsbom

Andreas Bakken
Grinder Gård

- Økt behov for vanning, både i potet og gulrot
- Aldrende maskinpark med vanningskanoner
- Bauer Linestar
- Installert våren 2016

- 180 m lang, med kanon på enden ca 195m
- 1.800 m kjørevei
- Dekker ca. 390.da, hovedsakelig lett sandjord

Vanningsbom vs vanningskanon

- Jevnere vanning
- Kraftig reduksjon i tidsbruk
- Redusert energibruk
- Enkel i bruk
